Storage	577,224.83	West	1,919,685.38

Data Visualizations & Performance Metrics

Key Strategic Insights

• **Electronics Dominance:** The Electronics sector commands the majority share of the total sales, driven primarily by laptops and smartphones. Investing in technical inventory is advised.

• **Regional Growth:** The Southern region emerged as the clear leader, followed closely by the East and North. Target marketing campaigns in the West can unlock additional customer demand.

• **Optimized Channels:** Retail stores and online channels contribute strongly to sales consistency, highlighting a robust omnichannel performance.
